

Uddeholm Showcases Mold Tooling Solutions at NPE 2018

Uddeholm Mirrax ESR High Polish Stainless Tool Steel Designed for Stringent Plastic Tooling Demands

FOR IMMEDIATE RELEASE

Elgin, IL., Feb. 21, 2018 – As a world leading supplier of high alloyed steel for the manufacture of tools and engineering components, Uddeholm introduces a premium grade stainless steel especially suited for molding applications. Uddeholm Mirrax ESR is a high polish stainless tool steel that possesses a unique combination of toughness, corrosion resistance, and uniform hardness across large cross sections to meet the increasing demands of plastic mold tools.

Uddeholm Mirrax ESR is an excellent tool steel with outstanding production performance. Designed to provide excellent polishability, high corrosion resistance, excellent through-hardening properties, and with good toughness and wear resistance, makes it an ideal mold steel offering a longer service life and lower production costs for the greatest overall tooling economy.

“For 350 years, Uddeholm has been devoted to provide unmatched service, and continuous in-depth research and product development to offer customers full tooling solutions,” says Kevin Rochford, Vice President of Sales, Uddeholm USA. “Following in the footsteps of highly successful products such as Uddeholm Stavax ESR, the tooling benefits of Uddeholm Mirrax ESR will provide plastic molding customers with high level corrosion resistance and top quality end products.”

Uddeholm will be showcasing Uddeholm Mirrax ESR at the NPE 2018 Plastics Show at the Orange County Convention Center in Orlando, Florida. Stop by South Hall, Booth S31061 from May 7-11, 2018 to learn how Uddeholm can provide you with complete solutions for your tooling needs.

About Uddeholm

Since 1668, we have been providing a wide range of innovative cutting-edge solutions for our customers in demanding segments. Our dedicated employees work in over ninety countries and together we deliver improved competitiveness to clients worldwide. Welcome to Uddeholm, #1 in high-performance tool steel.
