EU REGULATION EC (NO.) 1907/2006

Candidate list for Substances of Very High Concern (SVHC)

Dear customer,

According to article 59 of the REACH Regulation, substances identified as Substances of Very High Concern (SVHC) are included in the Candidate List (see attachment). These substances may have very serious and often irreversible effects on humans and the environment. Substances on the Candidate List may subsequently become subject to Authorisation by decision of the European Commission.

According to the requirements of REACH article 31, *suppliers of substances or preparations* shall provide the recipient of the substance or preparation with a safety data sheet if a substance as such or as part of the preparation is included in the Candidate list.

According to the requirements of REACH article 33, *suppliers of articles*, which contain one or more substances included in the Candidate List in a concentration above 0.1% (w/w), must provide sufficient information to allow the safe use of the article to the recipients of the article.

We assert, that due to our current knowledge, the steel products supplied to you, do not contain any of the substances published on the recent Candidate List above 0.1% (w/w). Thus, we are currently not obliged to specify the substances contained in our articles. We are continually reviewing the status of the Candidate List and will inform you if any relevant changes occur.

If you have any further questions please contact us or visit the REACH section on our website.

Sincerely,

Eva-Lill Bergenfur
