

EXPORT CONTROL

Uddeholms AB is one of the world leading suppliers of tool steel. The main part of our production is globally exported. Our UDDEHOLM/ASSAB brand is delivered to customers in more than 70 countries. Therefore it is important to provide good service to our customers and ensure high quality in our custom procedure.

It is evident for us to follow national and international laws and regulations, standards and other demands of authorities. We guarantee to withhold those demands through our routines, instructions and surveillance of changes within the laws.

Uddeholms AB's products are concerned of national and international export control regulations as well as we have the voestalpine's group policy. In case of further sales, national laws and regulations in your own country have to be considered.
